Esecom Oy distributes OptiMobile's Dual Mode solution

(Stockholm, 16 February 2009) Esecom Oy is licensed to sell and distribute OptiMobile's Dual Mode product to enterprise customers in Finland and in the Baltic countries.

Enterprises in Finland and the Baltics are now able to upgrade existing company telephony exchanges with OptiMobile Dual Mode to achieve a One Phone concept – all telephony is performed using one mobile telephone. When an employee is within range of a wireless local area network (WLAN) the call is automatically transferred from mobile (cellular) network to fixed-line telephony network using IP-telephony.

OptiMobile Dual Mode supports a large number of mobile telephones and is compatible with leading enterprise solutions such as the Aastra technologies MX-ONE enterprise solution and the Cisco Call Manager.

Esecom Oy and OptiMobile AB have signed a license agreement under which Esecom Oy will distribute and sell OptiMobile Dual Mode via direct and indirect sales to enterprise customers in Finland and in the Baltic countries.
