

OptiMobile AB (publ) licenses software from Teluu Ltd

OptiMobile has signed an agreement with Teluu Ltd in the UK for usage of their portable and versatile SIP Stack, the PJSIP software library.

Teluu provides a compact, full-featured framework for multimedia communications over the Internet, called PJSIP. The PJSIP library, offers a robust VoIP communication library with good performance together with a low footprint.

The PJSIP library is cross-platform with support for many different hardware platforms that enables OptiMobile to create products for multiple hardware platforms using the same code base. The stack is modular and offers possibilities to extend and customise it to fit OptiMobile's own products as well as and OptiMobile's customer needs.

CEO Erik Nilsson comments:

"With the PJSIP stack and support from Teluu we will be able to reduce our development time and quicker address our customers' needs."
